PRAISES for David Field

Laura Bryant, owner J.L. Irwin Transportation 3/18

Thank you David! You are my favorite bookkeeper/QB expert of all time.

Daniel Del Carlo CPE, owner Del Carlo Engineering 8/16

My savior! I hated bookkeeping and he has managed to teach me to kind of like it. Kind of, mind you. I think it would take an act of a higher savior to get me to really enjoy it. Anyway, my books were a mess and his expertise with QB as well as general accounting skills has been a boon to me and put my "stuff" in order. I can't recommend him highly enough!

S.K. Business owner: Emeryville CA 8/10

As the owner of a small business I needed to learn how to use QuickBooks for my sales. I hired David both to help me set up QuickBooks and teach me how to input all my information. Not only did he teach me very well, but he was also able to fix problems that were created by another person who I had hired a while back to help me up my system. I would definitely recommend him."

Bari Tessler, owner of Conscious Bookkeeping 3/04

David is my QuickBooks Guru. When I am stuck and cannot answer a question for a client or when I am having difficulty trouble shooting in QuickBooks for myself, David is the first person I call. He returns my calls immediately and has a 100% success record with helping me get out of any trouble that I have gotten myself into within the system. He understands the QuickBooks system backwards and forwards and probably could do it in his sleep. Another benefit of working with David is that he is very playful and funny and this increases the joy of any activity that we do. I highly recommend his services!

Joanne Black, Free Hand Books 1/97

David Field was a godsend to me. I brought no knowledge of accounting and he got the company chart of accounts set up in QuickBooks explaining all along what and why he handled each step. If you would like to learn QuickBooks from a patient teacher who knows just when to offer his support and when to encourage going on your own, then call David Field.

Sidney Greene, Homeowner 12/95

I found David to be patient and persistent in setting up the accounts correctly (when I was impatient and just wanted a quick result), as well as calm and easy to work with. My two semesters of bookkeeping at a community college left me ill prepared to set up the many interlocking accounts necessary to succinctly and accurately reflect our home accounting. David's expertise and practicality (not to mention his good humor) were invaluable in helping me
