

*Get your
financials
together!*

Could your QuickBooks use an assessment, cleanup or overhaul?

Do you have a chaotic, out-of-date or non-existent bookkeeping system?

Would you like to be able to generate clean and accurate reports for your CPA, tax preparer and other financial professionals?

I specialize in using QuickBooks to organize financial data for individuals, small businesses and non-profits. Providing on-site setup, training and support with an emphasis on clear reporting.

I clean up QuickBooks messes as well as prevent them and am familiar with all versions of QuickBooks as well as Quicken, POS and databases.

Servicing Sonoma and Marin counties, I am confidential, thorough, and reliable with 15 years of experience and lots of references.
