## MARIN COUNTY WATERSHED PROGRAM, 2007-2010

Client: Marin County DPW

Contacts: Liz Lewis, 415-499-7226

Chris Choo, 415-499-7586

The Marin County Watershed Program (MCWP) provides a **framework to integrate flood protection, creek and wetland restoration, fish passage, and water quality improvements** with public and private partners to protect and enhance Marin's watersheds. It is also intended to **create opportunities for partnerships** and to provide watershed-specific information for the Department of Public Works (DPW) staff, the public and partner organizations. Products of this multi-year effort include an **interactive website** supported by DPW, as well as internal **planning tools for DPW staff**.

As part of the foundation for the MCWP, PCI prepared **watershed descriptions** for each watershed that **synthesized key issues**, such as water management, biological resources, regulatory compliance, and infrastructure. PCI worked closely with DPW staff and the website designer to build a dynamic website with diverse content, including maps, slideshows, narrative content, project checklists, and graphics.

In addition, PCI developed internal planning documents for DPW engineering staff, including **guidelines for ecologically sound flood control** and **comprehensive information on listed plants and animals** within the County.

Development of this program provides DPW with the content and outreach tools it needs to develop **successful funding strategies** to support design and implementation of multi-benefit DPW projects.

**What's Happening Now**

**Welcome to our new website!**  
We are pleased to introduce our new content, designed to help you find all the information you need. Check back for updates and additional features to the site still to come.

**Final Draft San Geronimo Valley Salmon Enhancement Plan is available.**  
Final draft Salmon Enhancement Plan 3.9 MB  
Appendices 19.7 MB

**San Geronimo Valley Public Meeting**  
**Save the Date**  
January 21st at 7 pm  
Lagunitas School Multi-Purpose Room

**San Geronimo Valley October 2009 Community Meeting**  
Meeting documents available to download:  
Agenda  
Existing Marin County Policies and Code Summary

**Get Involved!**

**What is the Purpose of the Watershed Program?**  
The Program provides a framework to integrate flood protection and environmental restoration with public and private partners to protect and enhance Marin's watersheds.

**Flood Zone Meetings**  
The Marin County Flood Control has several flood zones created in areas with specific flooding problems.

**MCSTOPPP**  
A project of Marin County and its 11 cities and towns, MCSTOPPP has developed a creek focused approach to stormwater pollution prevention.

**Find the Documents You Need**  
The library will contain relevant documents for the County and its watersheds. Documents on the website will be centrally located in the library for easy reference.
