Dear Customer:

This year we introduced three new major items to our product line. The Stiff Ski, The Adjustable Wing Fin, and The Portable Slalom Course. In addition to these, we are also introducing many new sun related products featured in this brochure.

The factory direct program is great because we have been talking directly with you, enabling us to better understand your needs.

The Maha Rules beach towel featured inside is one of our favorite additions for 1982 and will be the only product offered at half-price through the end of this special. Cash in on the savings now as the price will never be this low again.

Also, the Maherajah toll-free lines are always open to answer any water ski related questions which may arise throughout this year. Feel free to call and speak with one of our water ski experts.

We wish you a great year. Thank you for your continued support.

The Maherajah Crew
