# GS Long Boarding is for Everyone!

The MAHA Giant Slalom "Long Board" ski provides a new and exciting way for every waterski enthusiast to enjoy their day on the water. Whether you're young or old, big or small, a novice or a pro, you'll find that the 7 ft. MAHA GS Long Board will handle anything you throw at it. It can be skied slow or fast in virtually any water condition. And its large surface area means there's a lot less pull, making long distance runs a breeze. When the water turns rough, you'll be glad you're skiing on the GS and not riding in the boat.

## Small Skiers

Even the smallest skiers in your family will love long boarding. The ski is effortless to ride. Soon your kids will be looking for boat wakes instead of trying to avoid them. And as 10 year old Nicole Spina explains to her dad, "It's really, really smooth!"

## Big Skiers

The GS ski's large surface area is ideal for big skiers. With a lot more surface, there's a lot less drag. And its solid construction will hold up under the most extreme conditions. What's more, starts are much easier and require

less power from the boat. Big Steve Pimental attests, "It's the easiest ski I've ever ridden!"

## Double-Up Skiers

Long boarding can make skiing a family affair. It's more fun with two or even three skiers at a time. There's no better way to spend time on the water together.

## Hot Dog Skiers

When it comes to hot dogging there are no limits on a Long Board. No matter where you ski or what you ski behind, or whether you're in the air more than you're in the water, you'll find the GS's rock solid stability and huge surface area is perfect for cutting loose on the water.

## Ski Racing

The Racing Long Board is piloted by the pros at over 90 mph in the open ocean. Nearly every top racer around the world chooses MAHA, including overall Catalina Ski Race champion Darin Kirkland shown here on his way to victory and with the checkered flag. MAHA's racing heritage includes 5 World Champion titles.

## Recreational Skiers

Long Boarding adds a whole new dimension to your day on the water. It doesn't tire you out like a traditional ski and water conditions make no difference - so now you can ski all day.

## Competitive Skiers

Training on a GS ski gives tournament skiers a great competitive edge. A few hour long

rides a week will keep you in peak condition. Yes! the GS turns - Greg Higginbotham gets his slalom course fix on a 7 ft. Long Board.

*"In my 45 years of skiing and building skis, riding and selling Long Boards is the most fun I've ever had. The new MAHA GS is totally diverse and exhilarating. One ride and you'll be hooked on Long Board skiing!"*
