

MAHERAJAH[®]
WATER SKIS SINCE 1950

**Classic Wood
360 Ski**

**The Water Ski
with the
“Right Attitude”**

\$530

Act Fast, Limited Time Offer!

You only need one ski in your boat.

The Maherajah 360 is the most versatile ski in the world. It is designed for skiers from 60 to 260 pounds, and for speeds of 10 to 60 mph. Imagine, one ski that works well for the whole family.

Ski 34 mph with 28 feet off on your new 360. Get big air jumping the 360!

Teaching new skiers on the 360 is easy, because "they get right up." The 360 is so stable, it's hard to crash.

Ride the ski with the "right attitude."

At Maherajah we have designed the classic wood 360 to be your favorite. By decreasing the attitude of the ski to the water, the classic wood 360 has less drag than other skis.

Now everyone can ski further, ride easier, jump higher, accelerate faster and all with less work and more fun!
