VILLA VISTA HERMOSA - is located on an exclusive, private, hilltop overlooking Chamela Bay with nine islands stretched out like sleeping turtles along the coastline. The breathtaking views, warm climate, and restful atmosphere make this the perfect place to renew body and spirit. Soothing sounds of the ocean and delicately cascading fountains can be heard from the 1500 sq.ft. luxurious penthouse suite and Jacuzzi on the upper level above the main living area. There are ten bedrooms, eleven bathrooms, large swimming pool, tennis court and numerous walking paths. The main house is in the colonial style with expansive living and dining areas. The services of a full-time chef and staff are there for your comfort and convenience. The estate is spread over 5 1/2 beautifully landscaped acres featuring tropical gardens with three exquisite hand-crafted fountains. Just a short walk on a private path through orchards of bananas, plum, lime, mango, and papaya will lead you down to a secluded cove with beautiful white sand beach for swimming, snorkeling, and sunbathing or you can stop off at the palapa covered gazebo on the way and enjoy romantic cocktails at sunset. This villa can accommodate up to 22 people. The services of a full staff, meals, and beverages are included in the rental price.
