PROFILE

Having spent 30 years as a teacher and administrator in public elementary and middle schools, I reclaimed my first love: helping to heal the mind. I became especially interested in Narrative Therapy, on which I wrote my doctoral dissertation. I maintain that interest and its underlying constructivist worldview, and I have expanded it to include EMDR and clinical hypnosis. I have had the great fortune to have interned for the past couple of years under Tony Madrid, Ph.D, who has guided me and taught me much from his wealth of clinical wisdom.
